4.6.1 Establishment of the Board of Adjustment and Appeals. The Town Board shall act as the Board of Adjustment and Appeals "Board of Adjustment".

4.6.2 Powers and Duties.

 - (4) The filing fee established by the Town Board shall be paid to the Zoning Administrator at the time of filing the notice of appeal.

undue hardship because of circumstances unique to the individual property under consideration.

4.6.3 Application. Application for variance shall be made to the Board of Adjustment on forms provided by the Zoning Administrator by filing such application and paying the filing fee to the Zoning Administrator. The Zoning Administrator shall fix a reasonable time for the hearing on the application and give notice thereof as required by law.

4.6.4 Other Powers. The Board of Adjustment shall have such other powers and duties as are assigned to it by law.

4.7 Variances

4.7.1 Criteria for Granting Variances. The following criteria shall be used when considering a variance application:

- A. The variance shall not allow a use that is prohibited in the zoning district in which the subject property is located.
- B. The variance must be in harmony with the general purpose and intent of this Ordinance.
- C. The terms of the variance must be consistent with the comprehensive plan.
- D. The landowner must show that the variance is necessary to alleviate practical difficulties or particular hardship resulting from strict application of the ordinance.
- E. "Hardship" as used in connection with the granting of a variance means:
 - (1) The property in question cannot be put to a reasonable use if used under the conditions allowed by this Ordinance;
 - (2) The plight of the landowner is due to circumstances unique to the property, not created by the landowner or a previous landowner;
 - (3) The variance, if granted, will not alter the essential character of the locality.

If the variance request meets all of the conditions cited above, the variance may be granted. Economic considerations alone shall not constitute a hardship if a reasonable use for the property exists under the terms of this Ordinance. Access to direct sunlight in the case of solar energy systems shall constitute grounds for granting a variance.

4.7.2 Procedure.

- A. The person applying for a variance shall fill out and submit to the Zoning Administrator a variance application which shall include a statement of the difficulties or particular hardships claimed, along with the filing fee.

- B. The Zoning Administrator shall refer the application along with all related information to the Planning Commission which shall act in an advisory role to the Board of Adjustment.
- C. The Planning Commission shall hold a public hearing on the request for variance. Notice of the time, place and purpose of the public hearing shall be according to *Minnesota Statutes, section 462.354 Subd. 2; or successor statute.*
- D. The applicant(s) or their representative shall appear before the Planning Commission at the public hearing in order to present evidence concerning the proposed variance.
- E. The Planning Commission may recommend the imposing of conditions on the granting of variances to insure compliance and to protect adjacent properties and the public interest. The Board of Adjustment may place additional conditions upon the issuance of a variance.
- F. The Planning Commission shall make a finding of facts and recommend to the Town Board (acting as the Board of Adjustment) such actions or conditions relating to the request. Such findings shall be entered in and made a part of the written record of the Board of Adjustment.
- G. Upon receiving the report and recommendation of the Planning Commission, the Town Board, acting as the Board of Adjustment, shall place the request on the agenda for the next regular meeting.
- H. Upon receiving the report and recommendation of the Planning Commission, the Town Board acting as the Board of Adjustment shall either:
 - (1) Approve or deny the request as recommended by the Planning Commission; and
 - (2) Concur or not concur with the Planning Commission with regard to modifications, alterations or conditions that differ from those recommended by the Planning Commission. Such modifications, alterations or conditions that differ from the Planning Commission shall be in writing and made part of the Town Board's records; or
 - (3) Refer the recommendation back to the Planning Commission for further consideration. This procedure shall be followed only one time for each variance request. If the request is referred back to the Planning Commission, the applicant shall be notified of the extension of time line for action on the request.
- I. Approval of any variance or appeal shall require passage by a two-thirds (2/3) vote of the full Town Board. The Zoning Administrator or Town Clerk shall give the applicant written notice of the Town Board's action. The written notice shall include the findings of fact.
- J. Decisions of the Planning Commission shall be advisory to the Town Board. The decisions of the Town Board acting as the Board of Adjustment shall be subject to judicial review.
- K. No resubmission of a variance application shall be allowed for six (6) months without new evidence related to the variance.

- L. Granted variances become void if the applicant does not proceed substantially on the work within six (6) months. To proceed substantially means to make visible improvement to the property. One or more extensions of not more than six (6) months each may be granted by the Board of Adjustment for good cause.
- M. An application for variance will not be accepted from anyone who is not an owner of land for which the application is made.
- N. A certified copy of all variances that are granted by the Town Board shall be filed at the office of the Stearns County Recorder.

4.8 Conditional Use Permits

4.8.1 Criteria for Granting Conditional Use Permits. In granting a conditional use permit, the Planning Commission and Town Board shall consider the effect of the proposed use upon the health, safety, morals, and general welfare of occupants of surrounding lands and water bodies. Among other things, the Planning Commission and Town Board shall make the following findings where applicable:

- A. The use will not create an excessive burden on existing parks, schools, streets and other public facilities and utilities which serve or are proposed to serve the area.
- B. The use will be sufficiently compatible or separated by distance or screening from adjacent agriculturally or residentially zoned or used land so that existing property will not be depreciated in value and there will be no deterrence to development of vacant land.
- C. The structure and site shall have an appearance that will not have an adverse effect upon adjacent properties.
- D. The use in the opinion of the Planning Commission and Town Board is reasonably related to the existing land use.
- E. The use is consistent with the purpose of the Zoning Ordinance and the purposes of the zoning district in which the applicant intends to locate the proposed use.
- F. The use is not in conflict with the Land Use Plan of the Township and County.
- G. The use will not cause traffic hazards or congestion.

4.8.2 Conditions of Approval. In permitting a new conditional use or the amendment of an existing conditional use, the Planning Commission and Town Board may impose, in addition to these standards and requirements specified by this Ordinance, additional conditions which the Planning Commission and Town Board consider necessary to protect the best interest of the surrounding area or the community as a whole. These conditions may include, but are not limited to, the following:

- I. Annual review if deemed appropriate by the Town Board.

Any change involving structural alterations, enlargement, intensification of use, or similar change not specifically permitted by the conditional use permit issued, shall require an amended conditional use permit and all procedures shall apply as if a new conditional use permit was being considered. The Zoning Administrator shall maintain a record of all conditional use permits issued including information on the use, location, and conditions imposed by the Planning Commission and Town Board, time limits, review dates, and such other information as may be appropriate.

4.8.3 Procedure.

- A. An application for a conditional use permit will not be accepted from anyone who is not an owner of land for which the application is made.

- H. No application for a conditional use permit shall be resubmitted for a period of six (6) months from the date of any order of denial.
- I. Granted conditional use permits shall become void if applicant does not proceed substantially on the work within six (6) months. To proceed substantially means to make visible improvements to the property. One or more extensions for not more than six (6) months each may be granted by the Town Board for good cause.

- J. A violation of any condition set forth in a conditional use permit shall be a violation of both the permit and this Ordinance. Failure to correct a violation within thirty(30) days of written notice from the Zoning Administrator shall be grounds to revoke a conditional use permit through the following procedure:
- (1) The Zoning Administrator shall give written notice to the permit holder, advising that the conditional use permit may be revoked upon the conclusion of a public hearing. The written notice shall also contain the nature of the violation and the facts that support the conclusions that a violation exists.
 - (2) The Town Board shall hold a public hearing in the same manner to that required for a new conditional use permit.
 - (3) Within 30 days of the closing of the public hearing the Town Board shall revoke the conditional use permit, make a finding that a violation does not exist, or modify the conditions of the conditional use permit so that a violation no longer exists.
 - (4) The Zoning Administrator shall give written notice of the Town Board's decision to the permit holder.
- K. All Conditional Use Permits that are granted by the Town Board shall be recorded at the office of the Stearns County Recorder.

4.9 Interim Use Permits.

4.9.2 Termination. An interim use permit shall terminate upon the occurrence of any of the following events, whichever comes first:

- A. The date or event stated in the permit; or

4.9.3 Conditions of Approval. In permitting a new interim use or the amendment of an existing use, the Planning Commission or Town Board may impose, in addition to these standards and requirements expressly specified by this Ordinance, additional conditions which the Planning Commission or Town Board consider necessary to protect the best interest of the surrounding area or the community as a whole. These conditions may include, but are not limited to, the following:

Any change involving structural alterations, enlargement, intensification of use, or similar change not specifically permitted by the interim use permit issued, shall require an amended interim use permit and all procedures shall apply as if a new interim use permit was being issued. The Zoning Administrator shall maintain a record of all interim use permits issued including information on the use, location, and conditions imposed by the Planning Commission or Town Board, time limits, review dates, and such other information as may be appropriate.

4.9.4 Procedure.

SECTION 5 NONCONFORMITIES

5.1 Nonconforming Uses, Structures and Lots

Within the primary and overlay districts established in this Ordinance or amendments that may later be adopted, certain situations may occur in which an existing use, structure or lot does not comply with the requirements contained in this Ordinance. It is the intent of this Ordinance to regulate nonconforming situations in such a way that any nonconformity is managed in accordance with *Sections 5.1.1, 5.1.2, 5.1.3 and 5.1.4 of this Ordinance*.

5.1.1 Nonconforming Uses

Nonconforming Uses for all Districts

Unless provided in *Section 5.1 of this Ordinance*, any use existing on the effective date of this Ordinance which is not in conformity with the requirements of this Ordinance shall only be allowed to continue subject to the following conditions:

- A. Such use shall be expanded, enlarged or altered, including any increase in volume, intensity or frequency of use of the property where a nonconforming use exists. Except as provided in *Sections 5.1.2 and 5.1.4 of this Ordinance*, structural alterations, expansions and additions to a structure devoted in whole or part to a nonconforming use are prohibited.
- B. A change from one nonconforming use to another nonconforming use is prohibited.
- C. A nonconforming use of a parcel of land may not be extended to cover more land than was occupied by that use when it became nonconforming, except a use involving the removal of natural materials such as granite, sand or

Should have been adopted by reference

gravel and solid waste management facilities, provided the expansion takes place within the boundaries of the facility permitted by the Minnesota Pollution Control Agency (MPCA) and during the term of the MPCA permit. A use involving the removal of natural materials may be expanded within the boundaries of the parcel where the use was established at the time it became nonconforming, subject to the standards for mining contained in *Section 7.17 of this Ordinance*.

- D. A nonconforming use that has been discontinued for a period of twelve (12) consecutive months shall not be re-established, and any further use shall be in conformity with this Ordinance, except as provided in *Minnesota Statutes, section 116.0711 governing Feedlot Permits; or successor statutes*.
- E. If a structure used for a nonconforming use is destroyed by fire or other peril to the extent of fifty (50) percent of its market value as indicated in the records of the county assessor at the time of damage, any subsequent use or occupancy of the land or premises shall be a conforming use or occupancy.

5.1.2 Nonconforming Structures

- A. **Nonconforming Structure Standards for all Districts.** Unless provided otherwise in *Section 5.1 of this Ordinance*, any structure existing on the effective date of this Ordinance which is not in conformity with the setback, size or height requirements contained in this Ordinance is a nonconforming structure and may be allowed to continue subject to the following conditions:
 - (1) The continuation of a nonconforming structure is allowed through repair, replacement, restoration, maintenance or improvement, but not expansion, of the nonconforming structure. Expansion of a nonconforming structure in any manner, including but not limited to expansion of height, width, footprint, size or bulk is allowed only in accordance with this Ordinance and are specifically limited by *Sections 5.1.2 and 5.1.4 of this Ordinance*.
 - (2) For seasonal recreational or residential homestead nonconforming structures, if the nonconformity or occupancy of a nonconforming structure is discontinued for more than one year, or the structure is damaged by fire or other peril to the extent of fifty (50) percent or more of its market value as indicated in the records of the County Assessor at the time of damage and no building permit has been applied for within 180 days of when the structure was damaged, it shall be removed, and any construction thereafter shall be in compliance with the provisions of *this Ordinance*. If a building permit has been applied for within 180 days of when the structure was damaged, reasonable conditions may be placed upon the zoning or building permit in order to mitigate any newly created impacts on adjacent properties or water bodies.
 - (3) For non-seasonal recreational or non-residential homestead nonconforming structures, if the nonconformity or occupancy of a nonconforming structure is discontinued for more than one year, or the structure is damaged by fire or other peril to the extent of fifty (50)

percent or more of its market value as indicated in the records of the County Assessor at the time of damage, it shall be removed, and any construction thereafter shall be in compliance with the provisions of *this Ordinance*. Normal maintenance, including non-structural maintenance and repair, except structural alteration of a nonconforming structure, is permitted.

- (4) Additions or alterations to, and replacements of any residential dwelling unit or animal feedlot that was in existence on or before April 21, 2000 and which does not meet the residential setback from an animal feedlot or animal feedlot setback from a residential dwelling unit may be allowed on a one-time basis, provided the residential dwelling unit or animal feedlot does not encroach into the nonconforming setback by more than twenty four (24) feet and further provided that all other setback provisions of this Ordinance are met.
- (5) Additions or replacements of mortality incinerators in existence on or before October 5, 2010 may be allowed through October 5, 2020 provided the incinerator was registered on or before December 31, 2010 according to *Section 6.28 of this Ordinance*.

B. Nonconforming Structure Standards in the Floodplain Overlay District.
In addition to the standards for nonconforming structures set forth in *Section 5.1.2 of this Ordinance*, the following additional requirements shall apply in the Floodplain Overlay District.

- (1) Additions and alterations to nonconforming structures shall be protected to the Regulatory Flood Protection Elevation in accordance with any of the elevation on fill or floodproofing techniques allowable in the State Building Code.
- (2) The cost of all structural alterations or additions allowed in *Section 5.1.2 B.(1) of this Ordinance*, to a nonconforming structure shall not exceed fifty (50) percent of the market value of the structure as indicated in the records of the County Assessor at the time of the damage, unless the conditions of this section are satisfied. The cost of all structural alterations and additions constructed since the adoption of the County's initial floodplain controls shall be calculated into today's current cost and shall include all costs such as construction materials and a reasonable cost placed on all labor. If the current cost of all previous alterations and additions exceeds fifty (50) percent of the market value of the structure, then the entire structure shall comply with the standards contained in *Section 10.1 of this Ordinance* for new structures.

C. Nonconforming Structure Standards in the Shoreland Overlay District.
In addition to the standards for nonconforming structures set forth in *Section 5.1.2 of this Ordinance*, the following additional requirements shall apply in the Shoreland Overlay District.

- (1) Additions or alterations to a nonconforming accessory structure shall not be allowed unless the addition or alteration meets the minimum setback requirement for the applicable lake or river classification.

- (2) Additions or alterations to a nonconforming principal structure that is partially or wholly lakeward or riverward of an established building line, determined pursuant to *Section 10.2.11 A (2) of this Ordinance*, may be allowed, provided any addition or alteration is landward of the established building line, the provisions of *Section 5.1.2 C (3) of this Ordinance* are met and all other provisions of *this Ordinance* are met. In instances where an established building line cannot be determined, additions or alterations shall not be allowed to a nonconforming principal structure unless the addition or alteration meets the minimum setback requirement for the applicable lake or river classification.
- (3) Any addition or alteration to a nonconforming structure that is located wholly or partly within the shore impact zone shall not be allowed.
- (4) Decks constructed in compliance with *Section 10.2.11 A (3) of this Ordinance* may be allowed, provided all other provisions of this Ordinance are met.
- (5) If a nonconforming structure within a Shoreland Overlay District with less than fifty (50) percent of the required setback from the water is damaged by fire or other peril to greater than fifty (50) percent of its estimated market value as indicated in the records of the County Assessor at the time of the damage, the structure setback may be increased if practicable and reasonable conditions are placed upon a zoning or building permit in order to mitigate any newly created impacts on adjacent properties or water bodies.
- (6) Non-Conforming Retaining Walls. Consistent with *Minnesota Statutes, section 394.36 subd. 4; or successor statutes*, existing retaining walls that are non-conforming may be replaced, provided the structure is not expanded, moved, increased in height or results in increased impact on the water body. The Shoreland Review Panel shall, in review of the project for a major shoreland alteration permit, set reasonable conditions and mitigation requirements to ensure structural integrity, aesthetic characteristics and to ensure natural resource protection goals are achieved for repair, replacement, restoration or improvement of said structure.
 - (a) Abandoned, discontinued or dysfunctional. If the nonconforming structure is abandoned, discontinued or dysfunctional in its original intent for a period of more than one (1) year, or is destroyed by fire or other peril to the extent of greater than fifty (50) percent of its estimated market value, as indicated in the records of the County Assessor at the time of damage, and no building permit has been applied for within 180 days of when the property is damaged, any subsequent use of the land or premises must conform to County standards.
- (7) Non-Conforming Sand Blankets Consistent with *Minnesota Statutes, section 394.36 Subd. 4; or successor statutes*, existing sand blankets that are non-conforming may be replaced, provided the structure or blanket is not expanded, moved or results in increased impact on the water body.

The Department shall, in review of the project for a minor shoreland alteration permit, set reasonable conditions and mitigation requirements to ensure aesthetic characteristics and natural resource protection goals are achieved for repair, replacement, restoration or improvement.

5.1.3 Nonconforming Lots

A. Parcel of Record

All lots or tracts, the plat or deed to which has been recorded in the Office of the County Recorder on or before the effective date of this Ordinance shall be considered a parcel of record. A parcel of record shall be a legally buildable parcel even though such parcel may not conform to the lot area, lot width or residential density requirements of the applicable primary or overlay district, provided all of the following are met:

- (1) The use is permitted in the applicable zoning district; and
- (2) In the Shoreland Overlay District, the lot or tract has been in separate ownership from abutting lands at all times since it became nonconforming; and
- (3) In the Shoreland Overlay District, the impervious surface coverage does not exceed twenty-five (25) percent of the lot; and
- (4) The lot was created compliant with the official controls in effect at the time; and
- (5) The applicable setback requirements of this Ordinance are met; and
- (6) The sewage treatment system standards contained in *Stearns County Ordinance Number 422; or successor ordinances* are met.

B. Residual Parcels

A parcel of record, as defined in *Section 5.1.3 A of this Ordinance*, that is subsequently reduced to a residual parcel because of a taking or dedication for a public purpose or public right of way shall continue to be considered a parcel of record and shall be considered a legally buildable parcel, provided the applicable setback requirements of this Ordinance and the sewage treatment standards contained in *Stearns County Ordinance Number 422; or successor ordinances*, are met.

C. Combined Lots or Parcels in Shoreland Overlay District

If, in a group of two (2) or more contiguous lots or parcels under the same ownership, any individual lot or parcel does not meet the lot area or width requirements set forth in *Section 10.2.8 or Section 10.2.9 of this Ordinance*, the lot or parcel shall not be considered as a separate lot or parcel for the purposes of sale, transfer or development; and the lot or parcel shall be combined with one or more contiguous lots or tracts so that together, they equal one or more lots or tracts, each meeting the requirements of this Ordinance.

- (1) Contiguous lots under the same ownership are exempt from this Section and may be considered as separate parcels for the purposes of sale, transfer or development if each individual lot meets all of the following requirements:

- (a) The lot meets at least sixty-six (66) percent of the dimensional standards for lot width and lot size for the Shoreland Overlay District within which it lies; and
 - (b) The lot must be connected to a public sewer, if available, or must be suitable for the installation of a Type 1 subsurface sewage treatment system meeting the standards contained in *Stearns County Ordinance Number 422; or successor ordinance*; and
 - (c) Impervious surface coverage does not exceed twenty-five (25) percent of the lot; and
 - (d) Development of the lot is consistent with the Stearns County Comprehensive Land Use Plan.
- (2) Contiguous lots under the same ownership are exempt from this Section and may be considered as separate parcels for the purposes of sale, transfer or development if each lot contained a habitable residential dwelling at the time the lots came under common ownership and the lots are served by a public sewer, if available, or must be suitable for the installation of a subsurface sewage treatment system meeting the standards contained in *Stearns County Ordinance Number 422; or successor ordinances*.
- (3) In Shoreland Overlay Districts, a portion of a conforming lot may be separated from an existing parcel as long as the remainder of the existing parcel meets the lot size and sewage system requirements of the zoning district for a new lot and the newly created parcel is combined with an adjacent parcel.
- D. Standards for Applications Involving Nonconformities in Shoreland Overlay Districts**
- In evaluating all variances, zoning and building permit applications or conditional use requests for nonconformities in Shoreland Overlay Districts, the County shall require the property owner to address, when appropriate:
- (1) Stormwater runoff management;
 - (2) Reducing impervious surfaces;
 - (3) Increasing setbacks;
 - (4) Restoration of wetlands;
 - (5) Vegetative buffers;
 - (6) Sewage treatment and water supply capabilities; and
 - (7) Other conservation-designed actions.
- E. Combined Lots or Parcels in the Scenic River District**
- Lots or parcels of record at the County Recorder's Office on or before June 21, 1977 which do not meet the lot size requirements of *Section 9.14.10 of this Ordinance* may be allowed as a building site provided the use is permitted in the Scenic River District, the lot was recorded in separate ownership from abutting lands at the County Recorder's Office on or before June 21, 1977 and all setback requirements of this Ordinance and the standards for sewage treatment systems contained in *Stearns County Ordinance Number 422; or successor ordinances*, are met.
